

Why Agencies Trust AllPaid

Customers choose AllPaid because they need absolute certainty that every payment is delivered.

No exceptions, no missing dollars, and no chargeback exposure.

Real Agency Experiences

"AllPaid eliminated the stress of chargebacks entirely. Guaranteed payments gave our team confidence we never had with our previous vendor. Live, integrated payments changed the way we work - citizens can pay and see it immediately, which was never possible before. Real-time visibility has made our process more accurate, efficient, and transparent for both staff and taxpayers.

Implementation was seamless. AllPaid worked directly with our software vendor and handled everything behind the scenes. Live data and detailed reporting allow staff to troubleshoot issues instantly, seeing why a payment failed and resolving it on the spot. We can correct issues ourselves, posting back payments or rejecting duplicates quickly.

Taxpayers now rely on the site to check balances and confirm payments anytime, even after hours, reducing in-office traffic. The AllPaid team is highly responsive, and their customer service truly stands out. Because of the consistency, support, and results, we regularly recommend AllPaid to other counties."

Director
County Tax & Treasurers Office

"AllPaid streamlined our process into a simple click-and-pay experience for members. Judges can click a link, pay dues or retreat fees, and receive an instant receipt — eliminating the manual receipt work the treasurer used to handle. Instant receipts make payments simple and automatic, removing extra administrative steps for members who need documentation for reimbursement.

Beyond convenience, the biggest improvement has been confidence in the accuracy of our financial records. There's now greater clarity in the numbers, giving both staff and leadership confidence that the books are balanced and accurate. With AllPaid, we have a modern, reliable payment process that supports our members and delivers the transparency we need."
